

## Shear Genius 2: Episode 6

### ***“Hair from Heaven” Insider Tips for Getting the Winning Look***

**Nexus® Salon Hair Care**, makers of *salon-proven and genius approved* hair care products, is back as the stylists choice to win on the second season of BRAVO's reality competition series, "Shear Genius." Nexus Editorial Director Roy Teeluck shows that with the right products and a few simple steps anyone can achieve *genius*, just-from-the-salon-style at home.

#### **Recap of Show**

This week Kim Vo joined the stylists for their short cut challenge, which was all about color. Each contestant was paired with a client who was looking for a dramatic new style. Each new look was then judged by how extreme of a transformation it was. After a generous four-hour window, Kim surveyed the vibrant `dos. Paulo and Nekisa came up short for not showing any dramatic difference, while Dee and Charlie were praised for their dynamic use of color. Charlie won immunity in the elimination for once again pushing the envelope. Instead of competing in the final challenge, he supervised the partnered stylists.

In the elimination challenge the stylists were assigned to work in pairs. Each duo was charged with styling three women to look like one of each of the original Charlie's Angels. Stylists needed to reinvent the `70s looks of host Jaclyn Smith, Farrah Fawcett and guest judge Kate Jackson. The judges weren't pleased with the outcome. After short deliberation, they decided there was no winner for this week. None of the clients looked edgy, daring or fresh. Glenn and Nekisa fared the worst in the judges' eyes, but it was Glenn's stiff, matronly take on Jaclyn's look that sent her packing.

**This week's "how to get the look" from Roy**

*Sometimes you really can't improve on the original! For a modern take on this angel's heavenly look, make sure you build body and movement into your style.*

- Start style in the shower with a moisturizing shampoo and conditioner. Try **Nexus Therappe** and **Nexus Humectress** for added shine.
- Apply a body boosting mousse, like **Nexus Mousse Plus** all over.
- Create a center part and blow-dry hair using a large, round brush to help add volume and movement. Curl the ends around the brush and hold the dryer over top for a few seconds; this will help set the wave.
- After blow drying, flip hair upside down and tousle locks with your fingers to help separate and loosen the structure of your style.
- Finish look by spraying entire head with a light-hold hairspray, like **Nexus 360° Volume**.
